HiTHIUM surpasses 100 GWh in cumulative shipments, marking a remarkable milestone in the energy storage sector, while innovating for long-term growth.

The German Solar Association (BSW-Solar) demanded on Monday that the federal government set a legislative target for the deployment of at least 100 GWh of battery storage ...

HiTHIUM surpassed 100 GWh in storage shipments, rising to third globally by early 2025. Leveraging integrated R& D, AI-driven manufacturing, and lifecycle services, it's deploying ...

Imagine powering 10 million homes for a full day - that's what a 100GWh energy storage project can achieve. As renewable energy adoption skyrockets, these mega-scale storage solutions are ...

For HiTHIUM, the 100GWh milestone is a new starting point. As the market shifts toward long-duration solutions, the company will stay focused on energy storage, driven by innovation and ...

Imagine a world where energy storage becomes cheaper than storing canned beans in your basement. With AI-driven optimization and new materials like graphene entering the scene, the ...

HiTHIUM celebrates over 100GWh in shipments, showcasing innovation in long-duration energy storage and commitment to quality and safety.

The German solar trade association Bundesverband Solarwirtschaft (BSW-Solar) has called on the federal government to impose a target of 100GWh of cumulative operational battery ...
