The air-cooled TRENE series provides efficient, safe and stable intelligent energy storage solutions. The cabinet adopts high-density, high-safety and high-performance LFP cells.

Traditional battery systems often struggle with Italy's diverse geography and aging grid infrastructure. Enter modular smart energy storage - compact, AI-optimized units that are redefining power ...

In this context, Fluence has developed Smartstack, a solution that offers 30% higher energy density than conventional systems, with a modular, vertically developed architecture that reduces land...

The FSP 100kW PCS is not just a powerful hardware product but also a technical platform for integrating smart commercial storage systems, enhancing energy resilience, and ...

The MEG 100kW x 215kWh Cabinet is engineered as a modular energy storage building block, ideal for commercial facilities, microgrids, and community-scale projects.

Power your independence with our high-capacity, all-in-one energy storage solution. Engineered for commercial, industrial, and community microgrids, this unit delivers resilience, intelligence, and ...

CTECHI's 100 kW / 215-241 kWh industrial energy storage system is making waves--not just for demand charge mitigation but as a flexible hub for microgrid setups, critical ...

The MG100K is a high-performance all-in-one energy storage system with 100kW output and 207kWh capacity, ideal for microgrids, industrial backup, and solar integration. Featuring LiFePO4 batteries, ...
