Within our manufacturing facility, we specialize in the research and production of battery energy storage systems, offering OEM and ODM services alongside our standard product line.

The construction characteristics of the recombination type lead-acid electric accumulators (valve-regulated hermetic accumulators); the absence of acid fumes and the virtual absence of gaseous ...

Exponential Power's Battery Cabinets & Enclosures provide durable, secure solutions for telecommunications and industrial applications. Designed to protect battery systems, these cabinets ...

When seeking a reliable power solution, our high-quality 100kWh battery container stands out. Designed for efficiency and durability, this Battery Storage System is perfect for factories and manufacturers ...

In addition to our premium, reliable stationary batteries, we carry a full line of well-engineered, factory-assembled battery cabinets. Selecting the best cabinets for C& D pure lead batteries depends on ...

The 100 kWh battery system is designed in a cabinet. It can protect the battery system well and also isolate the high voltage battery from the outside to reduce the safety risk.

This industrial and commercial battery storage system is the ideal compact solution for your battery projects to work alongside solar PV, EV chargers and back up power requirements.

Engineered for use with most type of battery terminal models, these cabinets can fit a wide variety of applications. This solution is completely customizable and flexible to support your application ...
