Explore the eSpire Mini: a turnkey energy storage solution for microgrid, backup, and off-grid applications in residential or C& I projects.

Built with LiFePO4 battery cells, it offers long life, safe operation, and steady performance. You can use this system in homes, commercial buildings, EV charging stations, and microgrids.

120kW/215kWh Liquid-Cooled Cabinet for Industrial Microgrids & Grid-Tied Applications

The 120 kW automatic switching cabinet integrates STS-based control, protection, and monitoring functions to enable safe and automatic grid-connected and off-grid operation works with energy ...

120KW+241KWh Battery Cabinet is a high-performance energy storage system designed for commercial and industrial applications. This integrated unit delivers 120KW of ...

Featuring lithium-ion batteries, integrated thermal management, and smart BMS technology, these cabinets are perfect for grid-tied, off-grid, and microgrid applications. Explore reliable, and IEC ...

This integrated lithium - ion battery system cabinet combines a 100KW power output module with a 233KWh high - capacity energy storage unit, designed for reliable energy supply in industrial, ...

Unified Battery Energy Storage Systems: 120kW/225kWh all-in-one design with global grid compatibility. Advanced cooling & safety for EV charging, microgrids.
