Featuring 215kWh of LiFePO₄ storage and a 120kW PCS, this system is engineered for industrial parks and commercial complexes that require high-power energy management.

From outdoor energy storage system cabinets to integrated cloud-based controls, EPC Energy has you covered. We want to help you create a sustainable future.

a rugged, wheeled powerhouse that can silently juice up an entire outdoor concert, rescue a blackout-stricken hospital, or keep a remote construction site humming for hours. Meet the 120kW mobile ...

Outdoor energy storage cabinets have evolved from simple battery boxes to intelligent power hubs. Whether you're securing telecom networks or optimizing solar ROI, choosing the right cabinet ...

High-capacity 241kWh outdoor battery storage system with 120kW output, hybrid inverter, and LiFePO₄ cells--ideal for C& I, PV, and microgrid applications. The VSS-241L120-A is a robust and high ...

AZE's outdoor battery system is tailored for small to medium-sized commercial and industrial (C& I) energy storage applications. Its modular design not only minimizes the impact of local failures but ...

Wenergy provides fully integrated, outdoor-rated ESS cabinets using LiFePO₄ technology with modular design and robust safety architecture. Our solutions are engineered for long-term operation, scalable ...

Overall, the JGNE 120KW 233 cabinet is a reliable, scalable, and sustainable energy storage solution, ideal for supporting green energy initiatives and improving power efficiency.
