Why should you choose a Dongah elecomm DC power system?

The dustproof, waterproof cabinet protects vital equipment inside from radiated heat, vermin and environmental elements. DongAh Elecomm's DC Power standalone systems allow for simple network deployment and support telecom infrastructure with low impact, environmentally friendly energy solutions.

Why are power supplies important for information and communication devices?

Power supplies for information and communication devices are important devices for providing stable power supply 24 hours a day, 365 days a year for the various communication devices used to provide data communication services, such as telephone and Internet.

How reliable is dmeps-16ka power system?

The DMPS-16KA is being used by one of Thailand's top service providers for their 3G and 4G mobile network upgrade. Reliability was a major factor in its selection. The power system must withstand Thailand's hot and humid climate and seasonal tropical monsoons. The power cabinets are being deployed to rural areas (as seen here).

What is a dmeps-16ka outdoor power cabinet?

DongAh Elecomm's all-in-one DMPS-16KA high efficiency outdoor power cabinet accommodates a power shelf, batteries and customer equipment for a compact and economical solution for 3G/4G (LTE) mobile networks.
