Our 20-foot container storage solution is not only powerful, but also extremely safe. Equipped with a 4-stage safety concept, fire and gas detection system and an explosion protection mechanism, we offer ...

This newly updated version maximizes energy density within a standardized 20HQ container, utilizing an aisleless design to deliver high-yield energy storage with a minimized footprint.

The EPES2097 is a 900 kW, 2097 kWh AC-coupled liquid-cooled energy storage system, pre-assembled in a 20HQ container for seamless deployment. Built around high-quality LFP cells, it ...

The Intensium®; Max 20 High Energy (LFP) is Saft's unmanned and ready to install Energy Storage System (ESS) in a 20-foot container, enabling utility-scale storage solutions for grids, ...

Powered by lithium-ion batteries, this portable product is ready to supply reliable power in challenging situations. It can work in island mode, as a hybrid solution with a diesel generator, or in parallel with ...

The BSI-Container-20FT-250KW-860kWh is built to solve the challenges of remote energy access, operational continuity, and scalable storage. It serves industrial and commercial entities that require ...

The Z20 Energy Storage System is self-contained in a 20-foot shipping container. On-board chemistry tanks and battery stacks enable stress-free expansion and unmatched reliability.

Containerized energy storage system All-in-one container range applications in commercial and industrial environments. The containerized configuration is a single container with a power conversion system, ...
