Wide working temperature range. WelsonPower advanced technology to produce lithium-ion batteries. The products have low pollution, high performance and high reliability.

3.2V 15Ah 32140 LiFePO4 battery cell with high energy density, long cycle life, and BMS protection for solar and EV applications.

Long Cycle Life - Maintains over 80% capacity even after 3,000+ cycles, ensuring long-term reliability.
Enhanced Safety - Excellent safety performance ensured by strict test. Outstanding Performance - ...

Whether the application requires outstanding cycle life or stable ...

In the fast - evolving world of energy storage, the 32140 battery has emerged as a significant player, powering a wide range of applications from portable electronics to small - scale electric vehicles. If ...

Suitable for all kinds of small electric tricycle battery packs, sprayer batteries, solar street lights, solar garden lights, photovoltaic energy storage, strong light flashlights, backup power ...

The 32140 3.2V 12500mAh and 15000mAh LiFePO4 (LFP) cells are high-performance lithium iron phosphate batteries tailored for applications such as electric vehicles, solar storage, and portable ...

Home > Custom LiFePO4/LiFeMnPO4 Batteries > LiFePO4 Batteries with UN38.3 > 3.2V LiFePO4 Rechargeable Cells with UN38.3 > LiFePO4 32140 Rechargeable Cell: 3.2V 15Ah (48Wh, 30A/2C ...
