Industrial-grade 60kWh high-voltage energy storage system, suitable for factories, microgrids, and energy peak shaving. Featuring modular stacking, high-voltage output, and full system-level BMS ...

The Deye GE-F60 is a high-voltage commercial battery energy storage cabinet designed for commercial and industrial applications requiring reliable, large-scale energy storage.

Designed for commercial, industrial, and microgrid applications, it integrates a 30kW PCS with a 60kWh LiFePO4 battery bank to provide safe, efficient, and reliable power storage.

The Sol-Ark L3 Series Lithium HVR-60 (Outdoor) battery energy storage system (BESS) offers scalability, reliability, and energy resilience essential for modern commercial and industrial operations.

High-efficiency 30kw/60kWh air-cooled integrated energy storage cabinet for photovoltaic systems, featuring modular design and cloud monitoring.

Designed to support grid-tied and off-grid scenarios, the Hybrid ESS cabinet offers seamless integration and maximized space utilization, making it an ideal choice for growing energy demands.

Designed for 24 / 7 operation, the GE-FH60 runs from -30 °C to +60 °C and ships with combustible-gas, smoke, and temperature sensors plus aerosol fire suppression. The cabinet interfaces directly with ...

Deye's GE-FL60 are advanced lithium iron phosphate (LFP) battery energy storage systems designed for high-performance energy storage applications. With robust safety features, integrated battery ...
