Located in the Ajban region of Abu Dhabi, the project is a key part of the emirate's broader clean energy initiatives. The plant will utilize advanced bifacial solar panels, which capture ...

The Solar Energy Self-Supply Policy supports Abu Dhabi's shift to renewable energy and improved electricity efficiency.

The policy will contribute to improving grid efficiency, enhancing security of supply, and supporting growth plans for Abu Dhabi's energy sector, in line with the Emirate's direction to increase reliance ...

Learn how Abu Dhabi's 24/7 Solar Project combines 5.2 GW PV with 19 GWh battery storage to deliver gigawatt-scale clean power, day and night.

Strategically located near the Al Khazna area, the plant will feature nearly three million solar panels designed to track the sun throughout the day, maximizing energy capture and output.

Upon completion, Khazna Solar PV will generate enough electricity to power approximately 160,000 homes across the UAE, avoiding more than 2.4 million metric tonnes of ...

The Abu Dhabi Department of Energy (DoE) has launched the Solar (Photovoltaic) Energy Self-Supply Policy in Abu Dhabi, enabling customers to improve daytime electricity efficiency ...

Abu Dhabi introduces a solar self-supply policy enabling residents and businesses to generate clean power and reduce grid dependence.
