-----  
How are the AFDC stations mapped?

The existing public stations are obtained from the AFDC's Station Locator and are current as of December 17, 2025. All stations are mapped over communities of concern census tracts. CARB staff attempts to display information that is as up-to-date as possible and cannot guarantee the accuracy of the data shown.

How do I search for charging stations?

Use the Advanced Filters to search for private and planned stations, as well as charging stations to match certain search criteria. Consumers and fleets considering electric vehicles (EVs)--which include all-electric vehicles and plug-in hybrid electric vehicles (PHEVs)--need access to charging stations.

What EV charging infrastructure is used in the alternative fuels data center?

The Alternative Fuels Data Center and the Station Locator use the following charging infrastructure definitions: Station Location: A station location represents a physical place with one or more EV charging ports. Examples include a parking garage or a parking lot.

Where can I find Electrify America charging location information?

CARB staff attempts to display information that is as up-to-date as possible and cannot guarantee the accuracy of the data shown. The most up to date charging location information for Electrify America can be found via their quarterly and annual reports which are linked on CARB's Volkswagen Zero-Emission Vehicle Investment Commitment webpage.

This map displays EV charging corridors designated by the Federal Highway Administration.

Electric Vehicle Charging Station Locations Find electric vehicle charging stations in the United States and Canada. For Canadian stations in French, see Natural Resources Canada.

The AFDC is a resource of the U.S. Department of Energy's Vehicle Technologies Office.

Stations maintained by Supercharger and located at No. 5639, Hangnan Road, Nanqiao Town, Fengxian District, Shanghai, China Mainland.
