This product is an integrated energy storage solution tailored for commercial and industrial scenarios, integrating 1MW power output and 2MWh large-capacity energy storage.

Leveraging AI-driven optimization, VPP integration, and intelligent energy management platforms, we deliver safe, efficient, and scalable energy storage solutions for utility, commercial, and residential ...

Our containerised energy storage system (BESS) is the perfect solution for large-scale energy storage projects. The energy storage containers can be used in the integration of various storage ...

With advanced hi-tech and equipment, Sunrange Energy has now all automatic production line and strictly controls raw material inspection, production procedure and finished product inspection. All ...

We integrate research and development, production, and sales of lithium battery packs, serving solar energy, wind energy, intelligent charging equipment, and more.

A : Yes. Connects via PCS to PV, loads, grid. Excess PV power stores; insufficient PV power (cloudy/night) discharges to supplement.

The company has mature experience and system design integration capabilities in the fields of carbon materials, monomers, modules, energy storage systems, energy storage safety and fire protection, ...

The MEGATRON 1MW Battery Energy Storage System (AC Coupled) is an essential component and a critical supporting technology for smart grid and renewable energy (wind and solar).
