-----

Ultra-thin dual glass modules are the final solution to the disadvantages of the traditional modules: anti-aging, PID-free, micro-cracks free, fire class A resistance, longer lifetime and easy cleaning.

The production capacity and sales volume of its main product, anti-reflective coating solar glass, rank the forefront of the industry. Moreover, the company gains a good reputation both in China and abroad.

The thermal performance of the SEAM60-280 solar panels from Almaden ensures their reliability and efficiency across varying temperature conditions. These panels are designed to operate optimally ...

Outstanding properties of all Almaden Solar Panel No Micro Crack PID Free Slim Module Design - Ultrathin - Ultralight Outstanding performance in case of wind/snow load Extended Guarantee Fire ...

Almaden is an integrated solar company that has investment from materials to terminal power plants. Based on glass technology, the company developed ultra-thin dual-glass frameless solar module, by ...

Our PV modules - 50+ year lifetime SEAM60 Monocrystalline 265W ~ 280W Glass-Glass Module See Datasheet SEAP60 Polycrystalline 260W ~ 275W Glass-Glass Module See Datasheet SEAB60 Bi ...

Glass-glass design helps to save module from damages caused by arc and hot spots, eliminating potential dangers of fire. Outstanding weak light performance guaranteed by Almaden's anti ...

Changzhou Almaden Co., Ltd. Solar Panel Series SEAP60 -2.0mm Double glass module. Detailed profile including pictures, certification details and manufacturer PDF.
