Depending on the retail price, customers can receive cash subsidies of up to THB 100,000. For customers, these incentives make EVs a cost-effective and environmentally sustainable choice, while ...

The Road Ahead reflects a strategic commitment to sustainable and green transportation solutions. The carefully tailored measures, encompassing tax reductions, subsidies, and manufacturing mandates, ...

BANGKOK, July 30, 2025 /PRNewswire/ -- Thailand's National Electric Vehicle Policy Committee (EV Board), today approved adjustments to the so-called EV3 and EV3.5 incentive packages to...

Led by the Board of Investment (BOI), the new incentives aim to keep the country competitive while building a stronger, high-tech domestic supply chain. Electric vehicles (EVs) and ...

Through targeted incentives and strict local production requirements, the policy is setting the foundation for a self-sustaining EV ecosystem. Under the BOI EV 3.5 scheme, the Thai ...

In order to promote the adoption and manufacturing of Electric Vehicles ("EVs"), the Thai cabinet officially approved the EV incentives from 2024 to 2027 incentives on 19 December 2023.

EV3.0 reduced the excise tax on EVs from 8% to 2%, lowered import taxes to 20-40%, and provided subsidies for EV buyers ranging from 70,000 to 150,000 baht per vehicle, depending on ...

For their counterparts with battery units surpassing 50 kWh, a more substantial subsidy of THB 100,000 is on offer. Simultaneously, the excise tax is poised to experience a notable reduction, ...
