Generac PWRcell The Generac PWRcell offers a highly scalable solution with its modular design. 4.

Should I buy a whole-home battery backup system?

For most American homes, partial battery backup systems make more sense financially and practically. Extended power outages are relatively infrequent in most parts of the country, making the extra investment in whole-home capacity unnecessary for typical use cases. However, whole-home battery backup may be worth considering if you:

What is a whole-home battery backup system?

While many homeowners opt for partial backup systems that power essential appliances, whole-home battery backup takes energy independence to the next level. These robust systems can keep your entire house running during extended outages, from your HVAC system to your home office setup.
