Serikandi and Solarvest have secured contracts to invest, build, and operate a 30 MW solar photovoltaics plant in Brunei.

The joint venture has secured a land lease agreement with the Brunei government for the project. Once operational, the facility will become the largest solar power installation in Brunei and ...

KUALA LUMPUR: Solarvest Holdings Bhd's subsidiary Atlantic Blue Sdn Bhd has secured Brunei's largest national solar project, with a generation capacity of 30 megawatts (MW). The project will be ...

The 30-megawatt project, to be constructed on a 33.29-hectare remediated landfill in Kampong Belimbing, marks a critical step in the Sultanate's ambition to shift towards a 30 per cent ...

Seri Suria Power, a joint venture led by Solarvest Atlantic Blue, will build Brunei's largest 30MW solar plant on a former landfill site. The project aligns with Brunei's clean energy targets of ...

Upon completion by the end of 2026, the project is expected to be the largest SPVPP in Brunei Darussalam, generating an annual output of 64,473,000 kWh, with a potential to offset about ...

The project, which originated from a request for proposal (RFP) process launched in 2021, will be developed on a remediated landfill in Brunei. It is expected to generate an annual ...

Solarvest, a publicly listed company on Malaysia's Bursa, has previously reported the project investment at over BND 30 million. The venture originated from an open Request for Proposal ...
