Energy Storage Canada is the only national voice for energy storage in Canada today. We focus exclusively on energy storage and speak for the entire industry because we represent the full value ...

Canada's largest contracted battery project is moving ahead with a ground-breaking ceremony, and developer Potentia has chosen e-STORAGE for full-stack delivery and long-term ...

The newly created Independent Energy System Operator says it wants more batteries connected to Nova Scotia's grid and it plans to open a call for bids from developers later this year.

Canadian Solar and Aypa Power Deliver 2.1 GWh of New Battery Storage to Ontario. As The Green Living Guy, I've been tracking the rapid expansion of large-scale battery storage across ...

On the heels of two years of modest numbers of new wind energy, solar energy and energy storage projects in Canada, the Canadian Renewable Energy Association (CanREA) expects 2026 ...

This investment of nearly \$2.8 million will enable this Canadian company to develop lithium-ion battery cells that are more powerful, faster to charge, safer and -- most importantly -- ...

Canadian Solar's e-STORAGE has landed its largest-ever contract, supplying 1.86 GWh of energy storage solutions for the Skyview 2 Project--Ontario's most ambitious battery installation yet.

Once complete, the new Skyview 2 Battery Energy Storage System will provide enough capacity to power nearly 400,000 homes, strengthening the province's electricity grid and protecting ...
