Where is ATESS based?

Based in Shenzhen, China, ATESS has a sophisticated and automated manufacturing plant. An international service network with offices and warehouses has been built in 5 continents to ensure fast shipping and after-sale service. Our product The ATESS solutions include all-in-one hybrid inverters, battery inverters and lithium battery solutions.

What is a hybrid inverter?

A hybrid inverter is a device that combines the functions of a solar inverter (converting DC power from solar panels to AC power) and a battery inverter (managing the charging/discharging of a battery storage system). It can intelligently manage power flow between solar panels, batteries, the grid, and loads.

How many kW can a hybrid inverter support?

Supporting up to 1200kW system capacity. All-in-one hybrid inverter has a power range from 5kW to 150kW. This integrated solar hybrid inverter integrates photovoltaic, energy storage and grid management, providing reliable backup power, achieving energy independence and having strong grid support capabilities.

What is a 2-in-1 hybrid inverter?

ATESS's 2-in-1 hybrid inverter combines solar and battery into a single unit, enabling uninterrupted energy conversion and storage.

Looking for a reliable China manufacturer, supplier, factory of ATESS hybrid inverters? Look no further! Our high-quality products ensure efficient power conversion for your solar energy needs. Contact us ...

Factory: For factories with higher energy consumption, the 50kw hybrid inverter and 40kw hybrid inverter can significantly lower operational costs and ensure production continuity during grid outages.

Thanks to the smart monitoring platform, Atess full series inverter products support remotely shutdown immediately when accident occurs. Setting parameters and FW update remotely, which makes PV ...

Based in Shenzhen, China, ATESS has a sophisticated and automated manufacturing plant. An international service network with offices and warehouses has been built in 5 continents to ensure ...

The ATESS HPS is a revolutionary bidirectional battery inverter that acts as the brains of your energy storage system. It unlocks the full potential of your batteries, ensuring a reliable and continuous flow ...

China atess hybrid inverter factory Wholesaler
