From outdoor energy storage system cabinets to integrated cloud-based controls, EPC Energy has you covered. We want to help you create a sustainable future.

They can be widely used in farms, animal husbandry, hotels, schools, warehouses, communities and solar parks. The system is fully productized, integrating LFP ESS batteries, PCS, EMS, FSS, TCS, ...

To accommodate different climates, we provide professional recommendations based on customer usage scenarios and requirements. This ensures that energy storage cabinets maintain excellent ...

Integrated energy storage cabinets offer several key features, including multiple compartments for efficient organization of batteries and equipment, durable construction materials for long-term use, ...

The Cabinet offers flexible installation, built-in safety systems, intelligent control, and efficient operation. It features robust lithium iron phosphate (LiFePO₄) batteries with scalable capacities, supporting on ...

With a robust, outdoor-ready design and advanced Li-ion (LFP) technology, this system is designed to optimize energy efficiency and sustainability. Whether for commercial, industrial, or residential ...

AZE's heavy duty outdoor battery enclosures and Lithium battery storage system are available in NEMA 3R, or 4X configurations. These outdoor battery enclosures, which come in all shapes and sizes, are ...

Engineered with reinforced steel enclosure and IP55/IP65 protection class for dust, water, and corrosion resistance in severe climates. Combines high-voltage lithium battery packs, BMS, fire protection, ...
