DAHUA ZUNWEI 6000w Solar Inverter 100w Complete Solar Panel Kit Solar Power System Including 50A Solar Controller Suitable for Camping, Outdoor Travel (Yellow,12v-110v)

The integrated Dahua solar power system consists of solar panels, lithium battery, maximum power point tracking (MPPT) charging controller, and mounting brackets. It provides stable power supply for ...

Integrated design, easy to install. > Pole mount. > Flexible angle adjustment of the solar panel and the camera. > 100W Monocrystalline solar panel. > Built sturdy to resist storms with sustained winds up ...

Designed with Starlight technology and 1/2.8" CMOS, the camera delivers high-quality monitoring images even in environments with low lighting, and provides back-end applications with round the ...

Designed with Starlight technology and 1/2.8" CMOS, the camera delivers high-quality monitoring images even in environments with low lighting, and provides back-end applications with round the ...

The compact bracket design integrates the battery, charge ...

> Supports automatic auxiliary heating function (heating starts at 0 °C and closes at 5 °C), ensuring operation in low-temperature areas. > Supports obtaining battery data information. > The indicator ...

The compact bracket design integrates the battery, charge-discharge circuit, photovoltaic panel, and camera bracket. It comes with stainless steel screws, ties, and aviation connectors for easy ...
