How much power does a Dometic plb40 use?

The power of the Dometic PLB40 is supplied by integrated Lithium Iron Phosphate (LiFePO4) battery cells, providing an energy supply of 512 Wh. Manufactured for use in harsh outdoor environments, its durable design will keep all your gear charged and ready for use when needed the most.

What is a Dometic plb40 Ah lithium iron phosphate battery?

The Dometic PLB40 Ah Lithium Iron Phosphate battery is designed for powering portable fridge/freezers and other 12V appliances while being off-grid. Thanks to its lightweight and compact design you can enjoy true independence and travel off-grid for longer.

What is the Dometic plb40 battery management system?

The battery's integrated battery management system protects the PLB40 from under-voltage, over-voltage, short-circuiting and overheating for optimum charge time, performance and storage. With this power management system, the Dometic PLB40 has a cycle of life which is up to five times longer than more commonly used lead-acid batteries.
