Dubai-headquartered, MENA-focused renewable energy company Amea Power has announced the successful financing and the start of construction on a giant solar-and-storage project ...

This project is expected to provide numerous benefits, including the addition of renewable energy capacity and battery storage systems.

Hassan Allam Utilities Energy Platform and Infinity Power have signed agreements to develop two renewable energy projects in the country.

Egypt is among the Middle Eastern countries looking to accelerate the growth of renewable energy.

Egypt's renewable energy sector today produces 8,866MW of power from wind, solar and hydroelectric sources, Energy Minister Mahmoud Esmat said in December. Since July 2024, Egypt ...

With projects in 20 countries, a 6GW+ project pipeline, and 1,600MW+ in operation and under/near construction, the company is rapidly expanding its investments in wind, solar, energy ...

The project -- incorporating a 1.7 GW (AC) solar power station coupled with 1,500 MWh of battery storage and supplementary systems in Abu Qir and Naga Hammadi -- is intended to ...

The agreement entails the collaborative development of a total 1.2-gigawatt (GW) solar power project coupled with a 720-megawatt hour (MWh) battery energy storage system. According to ...
