What is a modular battery system?

These battery systems are designed for rigorous use in commercial electric vehicles, large industrial electric vehicle applications and marine propulsion. Built for scalability, our modular battery packs can be connected in series or parallel.

What types of lithium-ion batteries are available?

The perfect lithium-ion battery solutions. Customised lithium-ion battery packs for handheld devices up to large industrial equipment. Semi-customised lithium-ion battery packs for handheld electronics devices. Off-the-shelf lithium-ion battery packs for handheld electronics. Are you interested in wireless power charging?

What is a high-voltage lithium-ion battery pack?

An emission-free source of energy that you can feel good about, powering the future of clean energy and alternative solutions. Our high-voltage lithium-ion battery packs are designed for rigorous use in commercial electric vehicles and large industrial EV applications. Learn more today!

What is an enclosed battery pack?

Enclosures made from injection molded plastics are most commonly used for battery packs. For these enclosed pack designs, two or more plastic parts are molded and then assembled with the pack and accompanied circuitry. They can be sealed using glue, mechanical fasteners (Screws) or ultrasonic welding.

Our Electric Vehicle Battery Packs offer total enclosed protection at a lower weight and cost than traditional steel containers. The streamlined design and nesting capabilities reduce storage space ...

As a leading supplier of lithium-ion batteries and energy storage technologies, NuEnergy immaculately engineers and develops custom pack enclosures for optimum energy solutions for industrial clients.

From concept and design to fabrication and assembly, Bull Metal Products manufactures custom battery enclosures, lithium battery boxes, and battery cabinets with the highest quality and safety standards.

APP EV's Modular Battery Packs deliver 78 kWh of energy storage, which delivers the range you need to enjoy driving your vehicle without concern. Each pack includes 8 battery modules in a 3S4P (three ...

CM Batteries is an innovative, technology-driven manufacturer of lithium modular battery packs. We specialize in designing high-capacity battery systems by dividing the requirements into smaller ...

These battery systems are designed for rigorous use in commercial electric vehicles, large industrial electric vehicle applications and marine propulsion. Built for scalability, our modular battery packs ...

The wide range of our state-of-the-art CellPac LITE battery packs includes batteries with UL 2054 and IEC 62133 certifications, thereby significantly reducing the design-in cost and time-to-market for our ...

CanPACK is CanEV's configurable Canadian-built modular lithium battery platform for EVs, industrial machinery, off-grid and defence use, with LFP/NMC chemistries and flexible voltages.
