HyperCube is a liquid-cooling outdoor cabinet suitable for energy storage. It features high safety, a long lifespan, high efficiency, stability, scalability, and rapid response.

The 261kWh liquid-cooled BESS is an advanced outdoor energy storage cabinet designed for commercial and industrial applications. Featuring a high-efficiency liquid cooling system, it ensures ...

In this article, we explore how liquid cooling outperforms conventional air-cooled battery systems, the unique advantages it offers, and the specific environments where liquid cooling battery cabinets excel.

The 80kVA / 261kWh liquid cooling cabinet is a high-voltage mini commercial & industrial energy storage system (C& I ESS) designed for fast deployment, flexible scaling, and long-term operational reliability.

Our liquid-cooling energy storage cabinet is engineered for high-efficiency, scalable ESS solutions. It combines top-tier LiFePO4 cells, advanced liquid cooling, and AI-powered safety features to ensure ...

**EFFICIENT AND DURABLE** Industry leading LFP cell technology up to 10,000 cycles with high thermal stability Liquid cooling capable for better efficiency and extended battery life cycle Higher energy ...

The MEGATRONS 373kWh Battery Energy Storage Solution is an ideal solution for medium to large scale energy storage projects. Utilizing Tier 1 LFP battery cells, each battery cabinet is designed for ...

BESS-372K is a liquid cooling battery storage cabinet with high safety, efficiency, and convenience. Equipped with high-quality phosphate iron lithium battery cells and advanced safety features, it ...
