Is GCL a medium sized solar panel manufacturer?

This makes GCL a medium sized solar panel manufacturer. On 19 December 2018, all GCL solar panels were de-listed from the Clean Energy Council's Approved Product List due to the existence of components detected in the testing which was outside the scope of the modules' certificate.

Are GCL solar panels available in Australia?

While in the Australian market some of GCL's solar panels are approved by the Clean Energy Council - none of the major distributors list their solar panels as available. As at June 2021 none of the installation companies on Solar Choice's platform have GCL solar panels listed as one of their offerings.

Are GCL solar panels good quality?

GCL solar panels show some promise of being good quality (particularly the Saturn and Gemini series) through their ranking as a top performer by PV Evolution Labs independent testing. Unfortunately at this stage their offering in Australia (if it is currently available) lacks good customer support.

Why were GCL solar panels de-listed from the CEC Approved Product List?

On 19 December 2018, all GCL solar panels were de-listed from the Clean Energy Council's Approved Product List due to the existence of components detected in the testing which was outside the scope of the modules' certificate. This appears to have been quickly resolved by GCL as they were back on the CEC Approved Products List on January 3, 2019.

GCL solar panel's power output ranges from 380 to 680 watts, while their efficiency floats from 20% to 22%. GCL solar solar panels are backed up with a 12-year product and a 25-30-year ...

GCL branded modules can be used for both off-grid and on-grid applications. With high-yield efficiency and long-term performance they are ideal for utility, commercial or residential roof-top installations. ...

GCL System Integration Technology strives to be the world's leading integrator of comprehensive energy systems.

See the table below for available information we have about GCL System Integration Technology Co. Ltd. solar panels. We do our best to provide information such as the panel dimensions, datasheet, ...

Browse and compare solar panels from GCL. Use this guide to compare solar panel products and understand which is best for your installation.

GCL operates five solar panel production facilities in China and one in Vietnam with a stated total production capacity of 12GW per year. This makes GCL a medium sized solar panel ...

A module from GCL System Integration Technology Co., Ltd. achieved a conversion efficiency of 23.43% under low-irradiance operating conditions of 800 W/m², demonstrating ...

China's GCL SI says it will invest \$2.5 billion to build a new solar panel factory capable of producing 60 GW of panels a year -- enough to meet half of global demand.
