What is Google Street View?

Street View, by Google Maps, is a virtual representation of our surroundings on Google Maps, consisting of millions of panoramic images. It allows users to virtually explore the world by viewing street-level imagery.

How can I use Street View in Google Maps?

You can use Street View in Google Maps by dragging Pegman to a place on the map or searching for a place or address in Google Maps. You can also find street-level imagery taken at different times from the Street View archives and other contributors in Google search.

What is Street View?

Street View is a virtual representation of our surroundings on Google Maps, consisting of millions of panoramic images. It allows users to explore the world virtually. Street View's content comes from Google and contributors.

Is the Google Street View app still available?

The Google Street View app is no longer available on Google Play and the App Store. It is still usable if you already have it installed on your mobile device until March 2023. For managing published imagery, other options include using Google Maps on a web browser or the Google My Business app.
