After several years of accumulation, Dongsheng Photovoltaic has a first-class research and development team, not only to provide customers with a single photovoltaic bracket products, but ...

With core competencies in international photovoltaic module manufacturing, inverter technology, and energy storage integration systems, Dongsheng provides customers with full-chain technical support ...

Main Products: New Energy Vehicles, Solar Energy, Inverter, Energy Storage, DC Line, Photovoltaic Bracket, Portable Photovoltaic System, Solar Street Light, Medical Devices

Li Dongsheng said that the company's new energy photovoltaic performance is better than the industry average, with revenue and profit growth exceeding 50% in the first quarter of this year.

Now, an object detection approach based on deep learning can automatically detect various defects on the electroluminescence (EL) pictures of solar PV modules.
