Huawei liquid cooling solution is a board-level liquid cooling solution for high-density system. The solution is green, energy-saving, highly reliable, highly integrated, and easy to maintain.

Huawei's LUNA2000-215kWh is a next-generation C& I (Commercial & Industrial) hybrid cooling energy storage solution, combining liquid and natural air cooling to maintain maximum efficiency -- even ...

To address this challenge, Huawei developed a full liquid cooling solution. In a closed liquid-cooled cabinet, all heat is dissipated in liquid, reducing the power consumption of cooling systems by 96% ...

Huawei FusionSolar is proud to introduce the industry's first C& I ESS that uses novel smart air and liquid cooling systems, along with advanced safety, thermal management, and power ...

Energy Storage System Products List covers all Smart String ESS products, including LUNA2000, STS-6000K, JUPITER-9000K, Management System and other accessories product series.

This product is a groundbreaking achievement developed through a three-year collaboration among Huawei's 12 global R& D centers. It has set a new industry benchmark in evaluating the six most ...

As the world's first C& I ESS equipped with intelligent hybrid cooling and Huawei's proprietary Cell-to-Consumption (C2C) Dual-Link Safety Architecture, the LUNA2000-215 embodies ...

Huawei's liquid cooling energy storage system has emerged as a game-changer, offering unparalleled efficiency and reliability for industries ranging from solar farms to industrial complexes.
