Through the Microgeneration Scheme and the Clean Export Guarantee (CEG), and Energia's competitive feed-in tariff, you get paid for any surplus electricity you export back to the grid.

This guide explains exactly how solar export payments work in Ireland, how much you can earn, what affects your export income, and how to maximise the value of your solar system.

If you are considering applying for a tariff under the Small-Scale Renewable Support Scheme (SRESS) as a project exporting all electricity that you generate to the grid, we recommend ...

Section 2: Feed-in Tariff and Export Limitations. In Ireland, the amount of electricity you can export back to the grid is regulated by the feed-in tariff (FIT) scheme. Under this...

The prices they offer can vary greatly. Electricity suppliers can also change the rates they offer for solar PV export payments at will. This is something to keep in mind if you are signing a contract with an ...

We're excited to announce that from 1st September 2025, new customers who have their solar PV system installed with Activ8 and sign up with SSE Airtricity will benefit from Ireland's best export rate ...

Learn how Irish businesses can save and earn with solar energy export in 2026. Compare rates, reduce costs, and get expert advice from Utilityfair.

Learn how net metering and export tariffs work in Ireland, and what solar homeowners in Dublin, Cork and beyond should know about the Clean Export Guarantee.
