What is a Delta OUTD cabinet?

Available in different configurations, Delta OutD cabinets are designed to protect equipment from external threats in all climates from the tropics to the arctic. In addition to traditional cooling methods, Delta's new hybrid cooling options revolutionize the cost structure of thermal management.

What are Delta's new hybrid cooling options?

In addition to traditional cooling methods, Delta's new hybrid cooling options revolutionize the cost structure of thermal management. Delta's OutD series comes in several sizes to ensure the right dimensions for all telecom equipment. A whole base station can be built inside our OutD cabinets.

What are Delta's hybrid systems?

For systems designed for EMEA and SA, Delta has developed two new hybrid solutions. Both hybrid systems, a combination of AV+AC and a combination of HEX+AV, lower operational as well as capital expenditure.

Does Delta offer a hybrid cooling system for EMEA and SA?

For systems designed for EMEA and SA, Delta has developed two new hybrid solutions. Both hybrid systems, a combination of AV+AC and a combination of HEX+AV, lower operational as well as capital expenditure. This is made possible by the sequential use of cooling units based on the actual temperature outside.

These cabinets are constructed using high-quality materials and fortified with secure locking mechanisms, tamper-evident seals, and intrusion detection systems to deter unauthorized entry.

This Hybrid Outdoor Telecom Enclosure is a fully integrated, weatherproof cabinet designed to house telecom power systems, batteries, and network equipment in outdoor environments.

This solution ensures energy efficiency, reduces reliance on grid power, and supports sustainable operation of telecom, monitoring, and industrial field devices.

ABS offers a variety of cabinet solutions in multiple designs and modules to meet the needs of any installation. Focused on faster and easier cost-effective deployment, our enclosures protect critical ...

The outdoor hybrid power supply cabinet integrates a robust power system that combines energy generation, storage, and management. Its components, including solar panels, ...

Latest hybrid outdoor telecom cabinet for field operations
