Through global channels, technological means and intensive operation, it effectively connects various value segments in the fields of new energy, energy conservation and emission reduction, and steel, ...

The C-shaped steel photovoltaic bracket system is mainly suitable for ground photovoltaic power stations and concrete flat roof photovoltaic power stations. The system has strong wind resistance, is ...

One commonly used component in PV mounting systems is the C channel, also known as a C purlin. This structural steel component provides excellent support for PV panels and helps distribute the ...

We are a physical factory specializing in the production of photovoltaic brackets, earthquake-resistant brackets, cable brackets, and punched C-shaped steel....

The C-shaped steel system bracket is made of carbon steel and is surface treated with hot-dip galvanizing or magnesium-aluminum-zinc plating, which has excellent anti-corrosion performance ...

The unique C-shaped cross-section design endows it with excellent bending and compressive resistance, enabling it to effectively support photovoltaic modules and resist external pressures such ...

Langfang Fengchen Metal Products Co., Ltd. Products:C Channel Shaped Steel, Photovoltaic Bracket, Solar Panel System Bracket, Anti-Seismic Support, Pipe Gallery Bracket

Product name:c-type steel photovoltaic bracket Solar Mounting System;Application:Solar frame, structure;Grade:Q195/Q235/Q235B/Q345/SS400/A36;Standard:AiSi ASTM GB JIS EN;Surface ...
