IOCCO designs and supplies photovoltaic module assembly equipment and turnkey lines. We integrate stringing, lay-up, lamination, junction-box, testing and packing with safe handling and full traceability.

What we offer to our customers is a high capacity automatic solution for the assembly of photovoltaic modules. Partnering with CETC Solar Energy, and leveraging our experience, enables a quick and ...

Our portfolio includes not only automatic solar panel production lines, but also individual equipment for PV modules production, from glass loading equipment at the beginning to solar panel assembly and ...

Complete solar panel manufacturing process - from raw materials to a fully functional solar panel. Learn how solar panels are made in a solar manufacturing plant, including silicon wafer ...

The demand for solar energy continues to grow, increasing the need for more efficient and automated manufacturing processes. To meet this challenge, a next-generation photovoltaic module ...

We will help our customer start new solar panel factory, provide semi and full automatic solar panel making machines. And help the customer update the manual production line to full automatic ...

This comprehensive guide outlines the key considerations to help you make an informed decision when choosing a photovoltaic solar panel assembly line tailored to your operational needs and growth ...

Top-of-the-line production lines guarantee seamless production, resulting in high-quality photovoltaic cells and modules. Comprehensive warranty and a responsive after-sales service also provide ...
