Utilizing Tier 1 LFP battery cells, each battery cabinet is designed for an install friendly plug-and-play commissioning with easier maintenance capabilities. Each outdoor cabinet is IP56 constructed in a ...

The move from simple air cooling to a sophisticated Liquid Cooling Battery Cabinet is a crucial step in this evolution. It is a testament to the engineering required to maximize efficiency, ensure safety, and ...

This 125kW all-in-one liquid-cooled solar energy storage system integrates high-performance lithium batteries, inverter, and energy management into a single unit, ensuring stable operation and optimal ...

Our intelligent liquid-cooled temperature control technology is not just about keeping your battery storage system at an optimal level - it's about reducing your energy bills, too!

Our liquid-cooling energy storage cabinet is engineered for high-efficiency, scalable ESS solutions. It combines top-tier LiFePO4 cells, advanced liquid cooling, and AI-powered safety features to ensure ...

Engineered for demanding applications requiring unwavering power reliability and operational cost efficiency, our cutting-edge Liquid-Cooled Battery Cabinet delivers exceptional performance and ...

Ranging from 208kWh to 418kWh, each BESS cabinet features liquid cooling for precise temperature control, integrated fire protection, modular BMS architecture, and long-lifespan lithium iron phosphate ...

The liquid-cooled battery cabinet adopts advanced cabinet-level liquid cooling and temperature balancing strategy. The cell temperature difference is less than 3°C , which further improves the ...
