Is a new solar project coming to Logan Lake?

KAMLOOPS -- A new solar-energy project is coming to the Logan Lake area. The B.C. government announced the ShTSaQU Solar Project near Logan Lake will provide nearly 104 megawatts of capacity once operational. The partners for the project is BluEarth Renewables Inc. and Oregon Jack Creek First Nation.

Could 104 megawatt solar power project be built north of Logan Lake?

A map of the proposed 104 megawatt solar power project proposed to be built north of Logan Lake. Photo/TNRD ---- By Michael Potestio/Castanet A large solar energy project that could power as many as 18,000 homes could be built north of Logan Lake within the next five years, the Thompson-Nicola Regional District has been told.

How much electricity would Logan Lake generate a year?

According to the presentation, the project north of Logan Lake would generate enough electricity to power 18,000 homes every year. It would also contribute \$5 million in annual property taxes and create approximately 200 construction jobs, with work beginning early to mid 2029.

Does Longgan Lake have high annual precipitation?

Annual precipitation, average spring water level and summer water level of Longgan Lake from 1987 to 2018. The red circles present years with abnormally high annual precipitation. 3.2. Inter-Annual Dynamics of Aquatic Vegetation

The Longgan Lake Central Heating Project is jointly promoted by China Three Gorges Renewables (Group) Co., Ltd. and SY Blue Sky subsidiary Chenzhiyuan Thermal Power. The project ...

Hubei Huangmei Longgan Lake Wind Storage And solar plant is an operating solar photovoltaic (PV) farm in Longgan Lake Management Area, Huangmei, Huanggang, Hubei, China.

Enhance clean energy capacity expansion to facilitate carbon reduction initiatives, with a particular focus on optimizing the utilization of the Poyang Lake wind corridor for scaling up wind and ...

On the basis of implementing the "county county connection" of natural gas, we have actively promoted the "gasification town" project, and have gradually improved the proportion of natural gas to the ...
