SolaraBox is built to solve project power needs. The system is modular and easily scalable: you can add multiple units to increase output, and it supports on-grid, off-grid, and hybrid configurations.

This is the product of combining collapsible solar panels with a reinforced shipping container to provide a mobile solar power system for off-grid or remote locations.

Discover the world's leading foldable solar container with 40% higher energy density. Solarfold(TM) by Sunmaygo offers quick deployment & 70% lower costs than diesel. Get your free quote today!

Comprehensive guide to solar power containers covering system components, applications, sizing, installation, costs, and benefits for off-grid power, emergency backup, and ...

Explore the benefits and technology behind containerized off-grid solar storage systems. Learn how these scalable, cost-efficient solutions provide reliable power and energy independence ...

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

We are offering mini renewable power stations in a Off-Grid shipping Container ready to be deployed worldwide. These include solar PV panels and mountings.

Our containerized energy solution offers notable economic and practical advantages:
