Discover innovative Data Center Power Supply and Solutions, designed to optimize Data Center Infrastructure and Facility efficiency, ensuring reliable power delivery and scalability for modern data ...

The 120 kW automatic switching cabinet integrates STS-based control, protection, and monitoring functions to enable safe and automatic grid-connected and off-grid operation works with energy ...

ISST delivers end-to-end intelligent infrastructure solutions that power the digital economy. Through cutting-edge fiber optic networks, modular data centers, and sustainable energy technologies, we ...

We are proud to announce that Vision has successfully won the bid for a UPS lithium battery project in Johor Bahru, Malaysia. With outstanding product performance, strong team ...

The 120kWh battery works in grid-tied, grid-backup, and off-grid modes with over 90% efficiency. If your project needs more power, you can add up to 6 modules or connect multiple cabinets in parallel.

High-efficiency, modular 160-200 kVA (400V)/160-225 kVA (480V) 3-phase UPS ideal for medium data centers and industrial/facilities applications. Optimize TCO with Galaxy lithium-ion battery cabinets.

The Vertiv(TM) EnergyCore Li5 and Li7 battery systems deliver high-density, lithium-ion energy storage designed for modern data centers. Purpose-built for critical backup and AI compute loads, they ...

Our extensive experience positions us as a trusted partner in critical sectors such as hospitals, data centers, government facilities and utilities, entertainment venues and events, and other industries ...
