What is the global solar PV inverters market size?

Reuse requires attribution under CC BY 4.0. Image &#169; Mordor Intelligence. Reuse requires attribution under CC BY 4.0. The Solar PV Inverters Market size is estimated at USD 14.27 billion in 2025, and is expected to reach USD 19.89 billion by 2030, at a CAGR of 6.87% during the forecast period (2025-2030).

How will the PV inverter market grow in 2035?

As per FMI's analysis, the PV inverter will grow at a CAGR of 6.4% and reach USD 3.2 billion by 2035. In 2024, the PV inverter market experienced consistent growth as a result of increasing solar installations in Asia-Pacific (particularly China and India) with government incentives and declining solar panel prices.

Which region has the largest solar PV inverter market share?

Asia Pacific is expected to account for the largest solar PV inverter market share, driven by the growing demand for renewable energy and the need for energy independence. The region is home to many developing countries, including China and India, where there is considerable growth in solar photovoltaic (PV) installations.

Why is solar PV inverter market development important?

Presently, solar PV inverters majorly find applications in the utilities and industrial sectors. Rising solar PV adoption, driven by improving cost competitiveness and energy transition policies, has been a significant factor for driving solar PV inverter market development.

On-grid solar inverters dominate the market in 2024, accounting for roughly 65% of installations due to their efficiency and grid connectivity for residential, commercial, and utility-scale projects.

PV Inverter Market Forecast and Outlook from 2025 to 2035 The PV inverter generators industry is valued at USD 1.7 billion in 2025. As per FMI's analysis, the PV inverter will grow at a ...

The global PV inverter market was valued at USD 34.6 billion in 2024 and is estimated to grow at a CAGR of 9.5% from 2025 to 2034. The paradigm shift toward the integration of renewable energy ...

Solar Pv Inverters Market Size, Share, Growth, And Industry Analysis, By Type (Central Inverters, String Inverters, Micro Inverters), By Application (Residential, Commercial, Industrial), ...

By 2035, the market is expected to reach USD 14.45 Billion. The rapid global shift towards renewable energy sources is one of the key solar PV inverter market trends. According to SolarPower Europe, ...

Prospective newcomers confront a dual hurdle of steep certification expenses and a global value chain in which established vendors already occupy the lion's share of utility pre-qualification ...

Based on the type segment, the Solar Inverter market has been categorized as central inverter, micro-inverter, and string inverter. Central inverters are large units that find application in utility-scale solar ...

The Solar Inverter Market is anticipated to grow at a robust CAGR of around 11.0% from 2026 to 2033. The Asia-Pacific region is at the forefront of the market, benefiting from rapid technological ...
