Foldable Photovoltaic Power Generation Cabin is a containerised solar power solution. Combining the features of solar power generation and mobility, it provides electricity all over the world.

Shopping malls and similar venues present attractive, big-time opportunities as potential sites for grid-connected solar power, energy storage and intelligent, highly energy-efficient facilities management.

Huijue Group newly launched a folding photovoltaic container, the latest containerized solar power product, with dozens of folding solar panels, aimed at solar power generation, with a capacity for ...

Our expertise in utility-scale solar power generation, custom folding containers, and advanced energy storage solutions ensures reliable performance for various applications.

Our commitment to quality and reliability is evident in every aspect of the Mobile Photovoltaic Energy Storage Container System. Designed to withstand the harshest environmental ...

Mobile solar power paired with energy storage guarantees resilience across sectors. Lithium-ion innovations and modular designs position these systems as cornerstones

This study discusses the viability of a 100MW PV power project in Rajshahi, Bangladesh by using RETScreen software. This includes benchmarking, emissions analysis, and financial analysis. [pdf]

A bustling shopping mall in Guangdong suddenly loses grid power during peak hours. Instead of descending into chaos, the mall's LED screens stay lit, escalators keep moving, and ice cream shops ...
