Our battery storage cabinets are constructed with a modular design, providing optimal flexibility for businesses across various sectors. Our power storage cabinets also adhere to safety and quality ...

They are designed to operate reliably in a wide temperature range of  $-20^{\circ}\text{C}$  to  $50^{\circ}\text{C}$ , ensuring consistent performance despite harsh weather conditions and extreme temperature fluctuations.

POD enclosures protect equipment from physical and environmental conditions found in factories, warehouses and other edge computing locations. Power and data cables are separated from cooling ...

Discover our high-efficiency, modular battery systems with zero capacity loss and rapid multi-cabinet response. Ideal for industrial, commercial, and emergency applications, our solutions offer remote ...

High-Temperature Type Network Cabinets for Edge Computing Thermal optimization in server cabinets involves passive and active cooling strategies to maintain safe operating temperatures. Unlike ...

House everything you need to run your business or edge computing location in a neat, enclosed cabinet. EdgeRacks eliminate the need for messy IT or networking closets. Available with power, cooling, ...

All-in-one, high-performance energy storage system for various industrial and commercial applications. Highly suitable for all kinds of outdoor applications such as EV charging stations, industrial parks, ...

Compact in size (154 x 108 x 48.7 mm) and designed for industrial environments, it supports a wide operating temperature range ( $-40^{\circ}\text{C}$  to  $70^{\circ}\text{C}$ ) and broad power input range (9-30V DC), ...
