The solar battery equipment cabinets are made specifically for the solar industry with an aim to make installations safer and easier for consumers. Tailored to fit your specific needs, available in different ...

Engineered with reinforced steel enclosure and IP55/IP65 protection class for dust, water, and corrosion resistance in severe climates. Combines high-voltage lithium battery packs, BMS, fire protection, ...

With IP54/IP55 protection, anti-corrosion design, and intelligent temperature control, they are ideal for telecom base stations, remote power supply, and containerized microgrids. Our outdoor cabinets are ...

Rugged steel 2/6 Solar Battery Cabinet for housing up to four Group L16 batteries. Outdoor-rated, lockable, and corrosion-resistant for off-grid solar and telecom power systems.

Featuring an IP55/IP65-rated enclosure, it offers excellent resistance to water, dust, and corrosion, making it ideal for solar energy, wind-solar hybrid, off-grid, and industrial backup power systems.

Durable waterproof sheet metal cabinets for lithium battery and solar storage systems. Customized design, weather protection, CNC cutouts, and fast delivery.

Thanks to the NEMA 3R enclosure, each cabinet can be safely deployed outdoors, protecting internal components from water ingress, corrosion, and dust accumulation. After finalizing ...

Solar modules combined with energy storage provide reliable, clean power for off-grid telecom cabinets, reducing outages and operational costs. Choosing the right solar module type and ...
