LZY Mobile Solar Container System - The rapid-deployment solar solution with 20-200kWp foldable PV panels and 100-500kWh battery storage. Set up in under 3 hours for off-grid areas, construction sites ...

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

Modern solar-powered farming equipment, from autonomous irrigation systems to electric tractors, now matches or exceeds the performance of traditional machinery while slashing energy ...

Discover off-grid renewable energy solutions, products, and services for reliable power in remote locations. Empowering energy independence worldwide since 2010.

Contact our team if you're looking for containerised off-grid energy for supplying any kind of site! Fill in the form below for a free no-obligation quote. Our off-grid installation service is available nationwide ...

We are offering mini renewable power stations in a Off-Grid shipping Container ready to be deployed worldwide. These include solar PV panels and mountings.

The off-grid version consists of a Solarfold container which, in conjunction with a suitable additional storage container, is not connected to the public power grid and functions completely autonomously.

Solar shipping container powers irrigation and tools in off-grid farms. Ideal for remote agriculture needing clean, mobile energy.
