---

This compact base station integrates the 5G baseband module and radio module, pre-installed the SageRAN's Engine(TM) 5G L2 L3 software, to provide a high performing 5G wireless access network.

Fully integrated and internal antennas GPS, 4G, LoRa (peak gain=2,6dBi) : no external antenna installation required (external LoRa antenna 3dBi or 6dBi possible as an option),

MultiTech Conduit&#174; IP67 Base Station is a ruggedized IoT ...

Bundled for easy deployment, the solution includes a Conduit with a LoRa mCard™, IP67 enclosure and LoRa antenna to improve outdoor range. It also provides a choice of cellular 3G, 4G-LTE or ...

MultiTech Conduit&#174; IP67 200 Series Base Station is a ruggedized IoT gateway solution, specifically designed for outdoor LoRa&#174; public or private network deployments.

designed for outdoor LoRa&#174;public or private network deployments. This highly scalable and certified IP67 solution is capable of resisting the harshest environmental factors including moisture, dust, ...

In contrast, Soetec's outdoor power base station solution reduces the installation and debugging time by nearly 40% per station, while failure rates drop by over 60%. Its excellent lightning ...

mPower™Edge Intelligence embedded software delivers programmability, network flexibility, enhanced security and manageability for scalable Industrial Internet of Things (IIoT) solutions.
