-----

The C-shaped steel brackets produced by this specialized equipment have multiple significant advantages in the construction of photovoltaic power stations.

The solar panel bracket is made of U-shaped steel or C-shaped steel made of zinc aluminum magnesium material and supports connecting accessories. It can be easily transported and ...

We are a professional manufacturer dedicated to cold bending equipment, our engineers can customize different equipment according to the needs of different customers.

Hebei Hengfu Roll Forming Machine Co., Ltd. is a professional manufacturer of cold-bending forming equipment and its complete set of automated production lines.

The fully automatic cold bending forming machine for photovoltaic supports is an advanced piece of equipment. It efficiently cold - bends and shapes metal materials into precise photovoltaic brackets.

Photovoltaic bracket cold bending machine This machine is suitable for the cold bending forming production of photovoltaic brackets: ? Maximum forming speed: 30 meters per minute; ? ...

The purpose of the utility model is to provide a kind of photovoltaic bracket cold-bending forming machine, cutting process does not easily cause product to become Shape.

The solar bracket roll forming machine is a special cold-roll forming equipment designed for processing profiles of solar photovoltaic (PV) brackets.
