Where can I buy solar panel cables?

EcoDirect.com offers cables for use in photovoltaic systems at competitive prices. We carry the newest MC4 locking cables, as well as the older MC3's and we even offer Rennsteig tools so that you can make your own professional-quality solar PV cables. For more information on solar panel cables, see our FAQ below.

Can I make a custom order for solar panel cables?

Custom orders for solar panel cables are always welcome. We have cable lengths on file for various OutBack Power System panel configurations so feel free to call for a set made to work with a half rack or full rack. Need tools to crimp and cut bulk wire on the job? [click here](#) to see our solar tool page.

How do you crimp a solar panel connector?

Crimping the connectors is one crucial step in installing solar panels. This ensures a strong and secure connection between the wires and terminals, preventing any potential damage or malfunctions. To crimp the connectors properly, you will need a crimping tool specifically designed for solar panels.

How do I choose the right solar connector type?

Selecting the appropriate connector type depends on your requirements. To help you choose the suitable one, we have detailed the most commonly used solar connectors, including MC4, MC3, XT60, and SolarLok. The MC3 connector is one of the most widely used connectors for solar panels in the past.

The Renogy MC4 Solar Panel Cable Connector Pair Male/Female is rated for a maximum current of 30 amps and a maximum voltage of 1000V DC. These connectors are compatible with wire sizes ...

Pick up top-quality solar panel cables and connectors for your large or small solar setup at The Inverter Store, including UL Listed AWG PV cable.

BougeRV solar connector is specifically designed for connecting photovoltaic solar systems with high mechanical requirements and extreme weather conditions, for permanent installations

Using these UL Recognized plug-and-play connectors significantly reduces installation costs for solar modules and permits time-saving, dependable series or parallel cabling of solar panels.

BougeRV solar connector is specifically designed for connecting photovoltaic ...

Need custom length cable or wire? We'll hand cut and crimp the right wire to length just for you with our UL

listed crimping system and glue-filled heat shrink. Custom orders for solar panel cables are ...

PV adapters allow a user to connect a module to an inverter equipped with a different type of end connector system. This allows the user to connect different brands of solar modules to another ...

At Sun-Pull, we optimize our bundled PV cable solutions for maximum efficiency. Using the correct cable accessories (e.g., connectors compatible with the PV module specified for a given project) helps ...
