---

(Yicai) July 16 -- Over 60 percent of listed Chinese photovoltaic firms reported losses in the first six months, hit by weaker demand, excess capacity, high inventory levels and tumbling prices.

For Chinese solar photovoltaic (PV) manufacturers, things are ...

For Chinese solar photovoltaic (PV) manufacturers, things are going from bad to worse. Recently published third quarter reports showed that many of the largest players are posting ...

In the first half of the year, China's manufacturing giants LONGi, Jinko Solar, Trina Solar and JA Solar posted combined net losses of nearly RMB11 billion (US\$1.54 billion), two and a half...

China has ordered the solar sector to rein in overcapacity and cut-throat pricing as the biggest manufacturers suffer billions of dollars in losses.

In 2024, photovoltaic giants faced losses exceeding EUR6.5 billion, with the price war not only eroding profits but also pushing many companies to the brink of survival.

SHANGHAI -- Major Chinese solar panel makers posted huge losses in the first half of the year due to production overcapacity, as industry players face mounting pressure to cut output ...

Losses at China's top solar manufacturers mostly widened in the first half of 2025, but analysts said restructuring to cut oversupply could help return the industry to profitability.
