***Efficient Drainage:** The aluminum alloy water guide clamp is designed for fast drainage, effectively avoiding clogging and for ensure a reliable performance in various environments.

Comprehensive solution: provides a complete water drainage and mud removal solution for maintaining the cleanliness and efficiency of solar - photovoltaic panel water guide clip

Versatile application: suitable for different types of solar panels, providing a universal solution for water drainage and mud removal,water drainage solution,water guide buckle for outdoor

Dear friends, today i will introduce to you a super practical photovoltaic panel cleaning tool - photovoltaic panel water guide clip, mud guide, solar photovoltaic panel module clamp, dust removal and ...

Using polymer materials, high and low temperature resistance, long-term outdoor use. Increase power generation and extend the service life of solar. Easy to install. Automatically fasten the solar panel ...

?Automatic Water Removal?The solar panel drainage clips are designed to automatically remove accumulated water, ensuring efficient power generation and extending the ...

Aluminum Alloy Water Guide Clip for Solar Panels, Photovoltaic Module Drainage Fastener with Secure for Edge Design, Resistant PV System Mud Drainage Buckle, (35mm)

Easy to install. Increase power generation to improve the service life of solar panels. Colour: Black. Automatically remove accumulated water.
