Saudi Arabia will invest \$2 billion to build two solar farms with total capacity of 2,000 MW in Turkey, the Turkish energy minister said on Tuesday.

Photovoltaic (PV) technologies - more commonly known as solar panels - generate power using devices that absorb energy from sunlight and convert it into electrical energy through semiconducting ...

Latest solar power news from Europe, Latin America, Sub-Saharan Africa, APAC, MENA and more. Stay updated on solar PV, solar energy, policy & projects.

Join us at Solar Power World as we cover the world of solar news on technology, development and installation on a daily basis.

See the latest on Solar Power. From breaking news to in-depth reporting, Bloomberg tracks the full story in real time.

Electricity generation by the U.S. electric power sector totaled about 4,260 billion kilowatthours (BkWh) in 2025. In our latest Short-Term Energy Outlook (STEO), we expect U.S. ...

Latest news on solar power, covering industry advancements, government policies, major projects, and technological innovations shaping the future of solar energy.

Photovoltaics is one of the fastly growing technology whose applications demand the exact knowledge of solar insolation, its components and their exact changing behaviour over days and even hours.
