What is US residential propane price?

Upgrade now. US Residential Propane Price is at a current level of 2.56, up from 2.557 last week and down from 2.629 one year ago. This is a change of 0.12% from last week and -2.62% from one year ago. US Residential Propane Price measures the price in USD per gallon of propane.

How much does a gallon of propane cost?

Prices range from \$2.30 to \$2.80 per gallon as harvesting season in autumn leads to short-term spikes. Texas, Oklahoma, and Louisiana have the lowest propane delivery prices in the nation, ranging from \$2.00 to \$2.40 a gallon in 2025. Low winter demand and proximity to Gulf Coast refineries keep costs down.

When did propane prices peak?

Historically, propane prices peaked in the winter of 2014, when the per gallon cost reached as high as 4.01. This spike in prices was largely due to a cold winter causing propane inventories to drop. View weekly updates and historical trends for US Residential Propane Price. from United States.

When are heating oil and propane prices collected?

Notes: Heating oil and propane prices are collected weekly during the heating season which extends from October through March. From April through September, heating oil and propane prices are collected on the second Monday of each month.
