What are Charles Modular Series cabinets?

Charles Modular Series Cabinets are a family of pad mount enclosures that offer the ultimate in flexibility and scalability for outdoor enclosure deployments. Multiple standard bays can be mixed and matched into a multitude of different configurations to suit a specific application.

What is modular construction?

Modular construction is a process in which a building is constructed off-site, under controlled plant conditions, then assembled on location. But why choose modular? Support the industry's efforts to expand modular construction and develop the next generation of industry professionals.

Who is a member of the modular construction industry?

Members are manufacturers, contractors, and dealers in two distinct segments of the industry - permanent modular construction (PMC) and relocatable buildings (RB). Associate members are companies supplying the modular construction industry with building components, services, and financing.
