Intelligent BMS, providing complete protection. Support high discharge power, IP55, natural cooling, wide temperature range: -20°C to 55°C. Modular design, easy to expand. Suited to residential and ...

It has the characteristics of high energy density, high charging and discharging power, and long cycle life.

Our solution is an all-in-one package: Battery packs, charge controller, BMS, EMS, and PCS, all integrated into a single unit with a highly efficient three-level topology to optimize system efficiency.

45kWh IP55/IP66 Energy Storage Cabinet with 100kW power for industrial and commercial applications, featuring high integration and modular design.

The battery storage cabinet protects from moisture and ensures that your batteries remain in top condition for years to come. In addition, it is essential to ensure your battery storage cabinet is ...

LiFePO4 100kw 215kwh air-cooled energy storage cabinet offers high-capacity, safe, and efficient lithium battery storage with advanced thermal management for commercial and industrial applications. All-in ...

This industrial and commercial battery storage system is the ideal compact solution for your battery projects to work alongside solar PV, EV chargers and back up power requirements.

It is an one-stop integration system and consist of battery module, PCS, PV controller (MPPT )(optional), control system, fire control system, temperature control system and monitoring system. ...
